

# our stake in the ground

organic, traceable, beauty innovation  
from cultivated jasmine flowers

## caressense™ biofunctional

based on science that connects emotions  
and skin biology

STEM support of young farmers through the  
association des fleurs d'exception  
du Pays de Grasse

100% natural phytofermentology™ with no  
added substances

local, sustainable supply chain for low carbon  
footprint in transport

vegetal and compostable waste  
returned to nature

activates skin sensors of "touch" as a caress, to  
release "feel-good" and age-defying molecules

responsible farming limits the  
impacts of urbanization

encourages insects and pollinators
